### PROFILE

Experienced Full-Stack Web Developer with over 7 years of expertise in building scalable, high-performance web applications. Specialized in React, Next.js, and Supabase, with a proven track record of optimizing web performance, streamlining workflows through reusable code, and technically validating UI/UX designs. Adaptable, collaborative, and focused on delivering high-quality, user-centric solutions. Strong problem-solving skills with a dedicated focus on tackling complex technical challenges and delivering projects efficiently.

### WORK EXPERIENCE

2021 - Present

#### Frontend Developer Apprentus Ltd.

Led the development of scalable, robust web features optimized for speed, advanced SEO, and cross-browser compatibility. Engineered a centralized, reusable code repository to standardize practices and accelerate project timelines. Collaborated with design teams to technically validate complex UI/UX wireframes, ensuring a seamless user experience.

2019 - 2021

#### Fullstack Developer Independant Freelancer

Developed an integrable Stencil.js booking plugin with AJAX-powered calendar slots and seamless JavaScript tag deployment. Designed an intuitive booking journey featuring multi-service pop-ups and streamlined confirmation workflows. Optimized WordPress websites using PHP, HTML, and CSS to resolve bugs and enhance performance.

2017 - 2019

#### Functional ERP Administrator La Soie S.A.R.L.

Integrated innovative features into the ERP system by proficiently leveraging a wide range of external APIs. Improved system functionality and elevated the user experience through seamless data synchronization. Compiled detailed documentation explaining recent updates to ensure smooth transitions and rapid user adoption.
